Resolution to defend UC San Diego's commitment to free speech and academic freedom

Whereas, we, the faculty of the UC San Diego Academic Senate, have grave concerns about the restrictions that are being threatened or placed on free speech and academic freedom around the country;

Whereas, defending academic freedom and free speech is crucial for protecting open inquiry, critical thinking, and democratic values;

Whereas, in the spirit of shared governance, we the Senate want to help our institution prepare for potential interference by the federal government with regards to free speech and academic freedom;

Therefore, be it resolved that we the Senate affirm the extraordinary value of academic freedom within the UC and at UC San Diego, a concept that encompasses the rights of faculty to choose the subjects of their scholarly, scientific, and artistic inquiry free from unreasonable interference or restrictions from government or public pressure; the rights of instructors to design and deliver their courses within the context of their own expertise; and the rights of both faculty and students to discuss and critique issues in the classroom that are germane to the topic at hand, including issues of contemporary controversy (outlined in APM 010);

Be it further resolved that we the Senate call upon the UC Regents, the UC President and our Chancellor: i) to make a public written statement affirming both the importance of academic freedom (as outlined in APM010) and free speech to the university's mission and ii) to mount legal challenges to any federal government overreach and infringement of free speech and academic freedom;

Be it further resolved that we the Senate will resist any efforts by the federal government to limit free speech or academic freedom at UC San Diego, such as demanding changes to curricula, departmental governance, or to policies governing faculty and student rights to freedom of expression;

Be it further resolved that, while Senate faculty may hold diverse views on many issues, we the Senate commit to a culture of dialogue in the form of respectful debate, and we defend the rights of our faculty to express unpopular or controversial views without being censored or reported;

Be it finally resolved that we call upon the UC San Diego administration to work with us to develop support structures that can help faculty when their academic freedom is infringed upon by such practices as doxxing or harassment.
